

# ContractorBoom

## Application Guide

The **ContractorBoom** is a versatile, general-purpose boom designed for ports, harbours, and inland waters with low currents and wave action.

Canadyne **ContractorBoom** is a versatile, general-purpose boom designed for use in many different spill response applications. The boom incorporates cylindrical foam floatation (solid buoyancy) that is cost effective and offers high performance, reliability, and durability.

## Features and Benefits:

- ◆ Cylindrical **polyethylene foam floatation**, many different diameters available.
- ◆ Wide range of **PVC and Urethane fabrics** available.
- ◆ **ASTM** or **Universal** style marine grade aluminum boom connectors to mate with existing equipment inventories.
- ◆ **Economy model** available with polystyrene foam
